Aim and Scope
The aim of UNESWA Journal of Agriculture is to serve as a forum for disseminating and integrating scientific knowledge in those disciplines that underpin agriculture. The Journal publishes research papers, case studies, essay and review articles as well as first hand experiences in soil, plant water and animal sciences, natural resources management, home economics and nutrition, and other related areas of relevance to the southern African Development Community (SADC) region in particular and African in general.

Annual Subscription
Annual subscription for a single volume is R75.00 (or US45.00 for those outside Africa). These rates include packing and delivery by air.
